Dear Publisher:

We are enclosing a check for the microfilm collection sales of your publication(s). The attached statement summarizes the calculations for second quarter of 1987, covering the months of May, June and July.

Our Editorial department has been hard at work on upgrade of IAC's indexes. A strict authority file has been established for subject headings and corporate names. Our Quality Control staff has spent many hours examining and correcting retrospective material to make it conform to these authorities. Since January of 1987, the following changes have been implemented:

* 1,000 new subject headings have been added; 885 new Library of Congress headings; 115 IAC-created headings.

* 10,000 cross references were added to support these new headings.

* 18,000 changes were made to correct inconsistencies with subject headings and corporate names.

The indexing of your articles helps to create demand for your publication's microfilmed text. By improving our indexes, we are improving the access to your publications.

Thank you for your continued cooperation and support.

Sincerely,

Jinna Gibson
Contracts & Rights Manager
